

White River Record of Chattel Mortgages 1894 -1898

Tom Eitniear 2025

A mortgage is defined as a legal agreement by which a bank or other creditor lends money at interest in exchange for taking title of the debtor's property, with the condition that the conveyance of title becomes void upon the payment of the debt. A chattel mortgage is defined as a mortgage on a movable item of property such as a mobile home, car, or boat, which serve as securities of the loan. This type of mortgage has been used by many individuals to acquire funds for a wide range of activities.

This document is a reproduction of the chattel mortgages recorded by the town clerk in White River Township, Muskegon County, Michigan from October 1894 to March 1898. Some records have discharged documentation while others do not. Every effort has been made to translate the cursive writing into understandable verbiage, but there may be instances where certain words are not translatable. Some words are translated as they are written even though some are incorrectly spelled, and some written names are translated to the correct spelling. For example: “Lawrence” was corrected to “Lorenz”

An index of names is located at the end of this document and will provide the reader with the opportunity to search for specific names, if desired.
